

TAKING DOWN THE COLEMAN CHEYENNE

Taking down the camper is simply doing the setting up steps in reverse.

Helpful additional hints...

To get your full deposit back:

Sweep out the camper and wipe down table counters and floor

If you brought a dog vacuum or brush out hair

Take everything with you that you brought and make sure the provided dishes, pans etc are put back into place and clean

ADDITIONAL HELPFUL HINTS.

1. Zip up all window shades and plastic before closing camper
2. Turn off all lights and shut off all gas.
3. Unhook all bungee cords under beds
4. Fold tenting in before sliding the beds in
5. Release all 4 stabilizers before lowering the roof
6. Stop twice while lowering the top to ease the tenting towards the center of the camper
7. Once you have done all the steps to repack up the camper and you have reconnected the camper to your vehicle, be sure you packed up the wheel chucks, you turned off the propane, and you have checked all connections from the camper to your vehicle.
